Borough of Island Heights Water Flow Management Program

To Affected Residents:

Please be advised that the Department of Public Works will be operating fire hydrants in your area as part of the Borough's Water Flow Management Program. Hydrants will be partially or completely opened beginning on June 14, 2018 between the hours of 8:00 am and 12 noon. Once the hydrant operations have been completed for the day, you should run both the hot and cold water in your home until it becomes clear.

This work is weather-dependent, and may be rescheduled or cancelled if conditions require us to do so.

We apologize for the inconvenience caused by the work, but please know we are implementing this Water Flow Management Program to improve water quality at various locations within the Borough.

Feel free to contact Borough Hall at (732) 270-6415 with any questions or concerns you may have. Thank you.
